positions on the ridge, from which they dominate with their artillery the important Flanders-Meuse railroad and the railroad towns of Roulers, Staden and Meuse.

The British public had been prepared for this new offensive by reports seen last night of heavy artillery shelling.

In two days against the "Tynes sector" since Aug. 1, British troops have penetrated the German defenses at least two miles.

The British drive is a direct menace to the German grip on the Belgian coast. And German recognition of the Belgian coast means German submarine bases at Zeebrugge and Ostend. If the enemy is forced to use huge balloons more captured in the British air raids, it is abundantly clear that submarine depots, now safe in the German-occupied areas, will be ruined if half its effectiveness.

GERMANS AGAIN FAIL TO SHAKE FRENCH HOLD

All Attacks Repulsed, Says the Paris War Office—Artillery Active.

PARIS, Oct. 12.—The night was marked by great activity of the artillery and by a series of German efforts to capture points on the front," says to-day's official statement.

"West of Cerisy we repulsed an army attack while a detail operation carried out by us north of Noye Farm enabled us to bring back prisoners. An enemy surprise attack of the Maloche de Campagne and three German efforts in the region of Aubeveille and Souain came to nothing."

"On the right bank of the Orne (Verdun front) military fighting continues in the region of Beaufourvau-

GERMAN MUTINY SAVED RUSSIANS FROM SEA ATTACK

Latest Reports Say Outbreak Affected at Least Six Important Fleet Units.

LONDON, Oct. 12.—The mutiny of the German fleet in the Baltic sea recently, when there were openings opportunity for attacking Russia, according to a despatch to the Daily Chronicle from Amsterdam, was due to the mutinous outbreak in the German navy.

The outbreak affected at least six important units of the fleet, putting them out of action and causing the authorities to doubt the discipline and loyalty of the crews of other large ships. It was impossible, the despatch adds, to take stern measures on a large scale against the offenders, because that would have increased the evil.

According to some reports here, the discontent in the German Navy began eight months ago. A large number of pamphlets were found dealing with the cause of the war and asking why Germany became the most hated nation in the world.

A fairly reliable account put the number of men condemned to penal servitude at thirty, whose sentences range from five to fifteen years, while eighty to one hundred were given lighter sentences.

WASHINGTON, Oct. 12.—Allied and neutral diplomats did not share to-day the optimism of American Government officials over the German fleet mutiny. Instead they expressed the view that announcement of the trouble was made for American consumption with a view to creating false hopes of peace.

Confidential reports show that there is some dissatisfaction in the Austrian as well as the German Navy, but the diplomats here say this is not sufficient to cause a revolution.

COPENHAGEN, Oct. 12.—Chancellor Michaelis has been told by a Liberal leader that the "prevailing feeling of the majority parties is that Admiral von Capelle's resignation is desirable," according to a quotation from the Berlin Tageblatt, received here to-day. The despatch said the newspaper also quoted the same individual as warning the Chancellor that he could not afford to support Vice Chancellor Helfferich much longer.

So far Berlin advices indicate no steps have been taken to punish Deputies Haase, Dittmann or Vogelauer for their alleged part in the German naval mutiny.

IRON CROSSES NOW GO TO LOOTERS OF FRENCH VILLAGES

Letter Found on German Prisoner Discloses How Soldiers Win Decoration.

LONDON, Oct. 12.—The mutiny of the German fleet in the Baltic sea recently, when there were openings opportunity for attacking Russia, according to a despatch to the Daily Chronicle from Amsterdam, was due to the mutinous outbreak in the German navy.

The outbreak affected at least six important units of the fleet, putting them out of action and causing the authorities to doubt the discipline and loyalty of the crews of other large ships.

It was impossible, the despatch adds, to take stern measures on a large scale against the offenders, because that would have increased the evil.

"I am attached to the requisition service of the army warehouse at Fourques. We take from the French everything in lead, brass, copper, zinc, etc. We take the chandeliers and kitchen utensils and everything is assembled here either from far or near and sent to Germany."

"Often it is very difficult to have to take from newly married women their wedding presents, but the necessities of war force us to do it."

"Together with one of my comrades, I made a fine haul recently. In a walled-up room we found fifteen copper musical instruments, a bicycle, 159 bedsteads and towels and six chandeliers which alone represented over fifty pounds of copper, with a mass of other things."

"You can imagine the fury of the old sorceress, the proprietor. For my part, I laughed heartily, for she only got what she deserved. She got only 10,000 marks (\$2,000) worth of stuff."

"The Commandant was very much satisfied and we are to be given a premium. I may even get the Iron Cross in addition, only I will wear it on my back, because on the breast it interferes with your work."

"For this moment, as you see, I lead a life of milk and honey, and besides there are some pretty girls looked up to it would be good to get to. But how long will this last? The doctor only knows. Every week we pass a medical visit, and some fine day I will find myself K. V. (meaning good for army service)."

LA FOLLETTE IS INVITED TO APPEAR AT INQUIRY

Committee Informs Him It Has No Power to Go Into His Right to Make St. Paul Speech.

WASHINGTON, Oct. 12.—Senator La Follette of Wisconsin was invited by the Senate committee investigating his alleged disloyal speech at St. Paul to appear next Tuesday before the committee for a hearing regarding assertions in his address.

"The committee, and the letter, beg to advise you that it does not consider power extend to an inquiry into your right to make the speech that question being reserved by the full committee for a later date," said the committee, who believe it authorized to inquire into the motives or animus of those making attacks on you."

Ball Game Convincing a German Prisoner Army Is in France

AMERICAN FIELD HEADQUARTERS, France, Sept. 26 (by mail).—German prisoners working near one of the American camps wouldn't believe our troops were really Americans until they saw them play ball.

"You can tell us you're Americans," said one German spokesman. "You're Englishmen in American uniforms. The Americans can't bring over troops because the U-boats are sinking them."

One American Red Cross mission has arrived at our front, but that is only a small part of what we need. There is little cholera or other disease among our armies and people now, but spring may bring more. Hundreds of American relief workers will be needed then. We are obtaining medicines from Japan, but lack funds which America could supply."

CALL ISSUED FOR SECOND REGIMENT OF WOODMEN

Another Forestry Unit, to Be Known as 20th Engineers, Is Needed for France.

ALBANY, Oct. 12.—Recruits for a second forestry regiment, to be known as the 20th Engineers, were sought in an appeal sent to-day by State Conservation Commissioner Pratt to the commandant's entire field force.

"The first forest regiment was recruited in France in practically three months," said Commissioner Pratt in his instructions to the field force. Accordingly any one who wants to get in the service quickly and render his country a service which is as important as any should not lose the opportunity to enlist in the 20th. It is to be used in cutting timber before the second draft will be effect, and when a man's number is posted he cannot be transferred.

"We did, six to four."

"You must be Americans, all right," he remarked slyly. "No Englishmen could play ball like you fellows did. I knew, because I used to be a fan when I was in America."

Second Regiment—Eighteen thousand men who have reached their eighteenth birthday and not passed their twenty-first, will be used in cutting timber for the front, and will be working it up for use at the front.
